The Art of Composite Decking

Wood Plastic Composite Quick Deck Tiles

The Castlewood Quick Deck Tile is a 100% eco-friendly capped composite deck tile comprised of natural wood grains and interlocking base for a quick and easy installation. Also, the decking tiles will not bend, warp, split, or crack so not only is it easy to install it is virtually maintenance free.

The Castlewood Capped Composite Deck Tile's interlocking system is also raised to allow for proper drainage of water and pools that could be created during heavy rain. The innovative interlocking deck tile was designed to be used by anyone from DIY beginners to veteran builders looking for a gorgeous, easy to install deck.

Overall, this Capped Deck Tile is a great alternative for anyone that wants to do a day project by themselves rather than hire a professional for a couple of days to build an entire deck.

300 x 300mm

600 x 300mm

Colours: Teak, Silver Grey

Technical Information

Dimensions: 300 x 300mm & 600 x 300mm

Composition: High Density Polythene Plastic Wood Fibre

15 Year Limited Warranty

Shield

- Patented formula provides color striking and deep wood grains that bring you the warmth and beauty of wood without the maintenance.
- The Shield withstands high traffic without exhibiting signs of wear and tear as seen in conventional composite wood.
- Shield encases all four sides to give absolute protection from Mother Nature's harshest conditions.

Core

- light core allows for less expansion and contraction and easier handling.
- The core uses coarse wood fibers for greater strength and durability.
