HAZARD IDENTIFICATION

Main hazards

The coping stones as supplied are not classified as hazardous and as such do not present a risk to health or safety. Possibility of dust generation when cutting the coping stones. Reference should be made to Health and Safety Data Sheets supplied by the manufacturers of adhesives or other materials used for fixing the copes.

Health effects – Eyes

Dust from cutting will cause transient irritation by abrasion.

Health effects – Skin

Dust may cause irritation by abrasion.

Sharp edges on broken copes may cause cuts and/or lacerations to skin.

Health effects – Inhalation

Exposure to dust may cause irritation of nose throat and respiratory tract.

FIRST AID MEASURES

First aid – Eyes

Immediately flood the eye with plenty of water holding the eye open. Obtain medical attention if soreness or redness persists.

First aid – Skin

Wash skin thoroughly with soap and water. Apply suitable dressings to cuts and abrasions. Obtain medical attention if cuts or abrasions are severe.

FIRE FIGHTING MEASURES

Product not combustible.

HANDLING AND STORAGE

Avoid breakages that might cause dust or sharp edges.

Stack on timber pallets and secure to pallet before moving.

PERSONAL PROTECTION

Wear protective gloves when handling tiles and suitable dust masks and eye protection when cutting slabs.
